PROFILE

Hello, I'm Martin Arista! I'm the youngest of four and the only left-hander. I've loved computers and how they work since I was 14 and I've been going ever since. Professionally, I've been programming for the past 5 years. I have been a functional contributor in various roles, including frontend, mobile, backend, and architecture. I'm self-motivated and passionate about my craft. This is visible from the wide range of frameworks I use today and never shying away from a new problem. Including those peskier problems and working with teammates to help solve it.

NOTABLE PROJECTS

Personal Website

Stack: Gatsby.js & Firebase

A weekend goal to rewrite my personal website and transition away from Squarespace. It was an oppourtunity to explore and have fun.

Hugo - Cocktail Recipie Manager

Stack: React Native & Swift

Having friends in the bartending industry I have come across a lot of one off drinks, this became my way of tracking them all to enjoy later.
